

PEEL HOTELS PLC

ENVIRONMENTAL POLICY

Peel Hotels PLC recognises its responsibility to respect the environment and strives to achieve this throughout our hotels.

We believe that everyone, from the government, to business and the community at large, has a duty to care for the environment and seek ways to conserve earth's natural resources.

In operating our businesses, we seek to minimise the waste of energy, raw materials and reduce harmful emissions, whilst complying with any legislation and co-operating with the authorities.

We will make not only our staff, but customers and guests aware of aims and will encourage them to assist us with our goals.

Staff will not only be advised of the importance of caring for the environment but trained as to how to protect it.

Robert Peel

Chairman
